Jean-Michel Basquiat was born to a Haitian-American father and a Puerto Rican mother in 1960. Even when Jean-Michel first began drawing on pieces of paper from his father, he had a clear vision of the future. As a teenager, he stopped attending classes and began tagging subway trains and buildings.

Under the name SAMO, Basquiat became the most popular graffiti tagger in New York. He started selling postcards and sweatshirts featuring his artwork on the busiest streets in Manhattan. He collaborated with Andy Warhol in the 1980s and his importance in the art world began to climb.

He received critical acclaim for his inspiring creativity. Soon, his paintings became the biggest drawcards at art exhibitions, many easily paying \$50,000 for an original. At one point in his career, the 25-year-old exhibited nearly 60 paintings in Hanover, Germany - becoming the youngest artist to showcase his work there. Sadly, Basquiat died on August 12, 1988, in New York City.

The Mississippi River is the longest river in the United States.

Australia is the biggest island in the world.

The Vatican is the smallest country in the world.

The t sound disappears from the end of words when a sentence is read aloud.

Here are some examples:

fl, bl, sl, cl, pl, bl, gr, tr, br, cr, dr, pr, fr, wh, str, sw, sp, sc, sn, sm, sk

Consonant clusters like *cl* can occur at the beginning of a word in English.
